Ford County, IL Daily COVID-19 Update

Ford County Public Health Department (FCPHD) is announcing no new cases of coronavirus disease 2019 (COVID-19) today. Ford County has a total of four confirmed COVID-19 cases, with one of those cases now deceased. These numbers are accurate as of the release time. Public health officials continue to investigate and contact all individuals who may have had exposure to individuals that tested positive for COVID-19. Federal privacy restrictions prohibit the release of any further information.

FCPHD continues to encourage all residents to conduct preventive measures, practice social distancing, and follow Governor Pritzker's Stay at Home Executive Order through April 30, 2020. COVID-19 appears to spread from person-to-person mainly with close contact (less than 6 feet), but may also be spread by a surface that has the virus and then touching one's mouth, nose, or possibly one's eyes. "We ask that if you are sick or have symptoms, please stay home and self-isolate. By doing this, you help protect others from unnecessary exposure," stated Lana Sample, Public Health Administrator.
