Ford County, IL Daily COVID-19 Update

Ford County Public Health Department (FCPHD) is announcing one new confirmed case today. The individual is a female in her 30's.

Ford County has a total of 18 confirmed cases, including one death. Three of the confirmed cases are associated with congregate living facilities. These numbers are accurate as of the release time. Public health officials continue to investigate and contact all individuals who may have had exposure to individuals that tested positive for COVID-19. Federal privacy restrictions prohibit the release of any further information.

FCPHD continues to encourage all residents to conduct preventive measures, practice social distancing, and follow Governor Pritzker's Stay at Home Executive Order, which has been extended through May 30, 2020. COVID-19 appears to spread from person-to-person mainly with close contact (less than 6 feet), but may also be spread by a surface that has the virus and then touching one's mouth, nose, or possibly one's eyes. Illinois Department of Public Health states that the spread is through respiratory droplets produced when an infected person coughs or sneezes.

COVID-19 in Illinois

The Illinois Department of Public Health (IDPH) COVID-19 webpage offers numerical data such as the total number of COVID-19 positive (confirmed) cases and deaths at state and county levels.

- For zip code level information on confirmed positive COVID-19 cases, please visit the IDPH Virtual map at: <https://www.dph.illinois.gov/covid19/covid19-statistics>. Please note, data will not be shown unless a zip code has six or more confirmed cases. This is consistent with Collection, Disclosure, and Confidentiality of Health Statistics (77 Ill. Adm. Code 1005). Zip code area 60957 is now being reported.
- For information on long term care facilities with cases of COVID-19 among residents and staff, please visit: <https://www.dph.illinois.gov/covid19/long-term-care-facility-outbreaks-covid-19>. Information provided at this link is provisional, subject to change, and updated weekly. Facilities report data to their local health departments, which in-turn report to IDPH, so lag time and discrepancies are to be expected.
